For example, chocolate pie is loaded with calories and saturated fat, which can also increase cholesterol, so you wouldn't want to have a lot of it.

Anyway, at the beginning of this year, another doctor put me onto one of the Valium family pills and some new anti-depressants.

ED, it's the worst messiest surgery, the nerves are everywhere, they cannot be avoided. She also added:

There are certain risks of general anesthesia that are extremely rare and include death and other life-threatening reactions to anesthesia.
